

Item Name : Quickfit Apparatus

Item Code : 433.2008.01

Item Description :

This distillation apparatus combines a normally separate Liebig condenser, still head and receiver adapter into a one piece assembly.

- Comprises Liebig condenser, still head and receiver adapter in a single piece
- Angle and position pre-defined • Simple to set up with fewer clamps required
- Less grease contamination • No air leakage under vacuum
- No liquid hold-up at the joints
