

**Item Name :** Male Genital Organ 4 Parts

**Item Code :** 4128.2008.01

**Item Description :**

This life size model, composed of 4 parts, is dissected through the median sagittal plane to provide excellent views external and internal structures. The removable parts include two halves of the penis, showing medial and transverse cuts and 2 halves of the male reproductive system with excellent detailing of internal structures.
