

**Item Name :** Nephron Diseases

**Item Code :** 4119.2008.01

**Item Description :**

This 300X life size model consists of 2 renal corpuscle sections: the first one shows the anatomy of the healthy glomerulus, the second one describes the most important glomerular pathologies due to hypertension: afferent arteriole arteriosclerosis, changes of vascular calibre, endotheliocyte and the consequent increase of plasma proteins in the urine. All the particulars are represented in high detail.
