**Item Name :** Flasks Round Bottle Four Neck

**Item Code :** 062A.2008.01

**Item Description :**

## Flasks, Round Bottle Four Neck – Multi-Neck Laboratory Flask for Chemical Applications

Flasks, Round Bottle Four Neck are precision-engineered laboratory glassware designed for efficient chemical reactions and distillation processes. Manufactured from high-quality borosilicate glass, these flasks ensure durability, thermal stability, and chemical resistance for laboratory applications.

### Optimized Multi-Port Functionality in Four-Neck Round Bottle Flasks

- **Premium Borosilicate Glass** – Provides superior thermal resistance and chemical durability.
- **Four-Neck Configuration for Multi-Purpose Use** – Centre neck with three parallel side necks for simultaneous reactions.
- **Interchangeable Joint Design** – Ensures compatibility with various laboratory setups.
- **Vertical Neck Alignment** – Two side necks positioned **\*\*180° apart\*\***, with a third side neck **\*\*90° from the others\*\***.

### Why Choose Four-Neck Round Bottle Flasks for Chemical Research?

Designed for laboratory precision, these flasks enhance reaction efficiency while maintaining sample integrity. Their four-neck configuration optimizes fluid movement for streamlined chemical, pharmaceutical, and industrial applications.

### Scientific & Industrial Uses of Multi-Neck Laboratory Flasks

- **Chemical & Pharmaceutical Research** – Supports controlled multi-port reactions and distillation setups.
- **Biotech & Medical Laboratories** – Ensures efficient sample containment for analytical procedures.
- **Industrial & Scientific Glassware Integration** – Facilitates uniform heating and fluid transfer in manufacturing and testing environments.

### Available Joint Sizes for Round Bottle Four-Neck Flasks

These flasks can be provided in various joint sizes upon request, ensuring compatibility with specialized laboratory applications.

### Optimize Your Laboratory Workflow with High-Performance Flasks

Enhance your chemical experimentation with Flasks, Round Bottle Four Neck, designed for controlled multi-port reactions and secure laboratory operations.
