

**Item Name :** Variable Capacitor1

**Item Code :** 3030.2008.01

**Item Description :**

Consists of two circular alluminium discs of diameter 200mm approx.  
used as a variable capacitor with two 4mm sockets fitted on a plastic moulded case (300x200x25)  
mm approx. One disc is fixed at the extreme end of the base and another one can move freely  
horizontally on the base to introduce the capacitance in the plates with varying their distance
